

OWENSBORO INCLUSIVE HEALTH COMMUNITY CONVERSATION

WHAT WE HEARD

INCREASE AWARENESS

Education on the definition of disability, diversity, inclusion, and universal design throughout the community

Community organizations need to recognize they can serve all people and people with disabilities need to take advantage of local opportunities

BROADEN ACCESSIBILITY

Community members and organizations, disability focused or not, need to work together to fight for inclusion

While many areas of town and modes of transportation are becoming more accessible they are not functional for all

IMPROVE EDUCATION

COMMUNITY COLLABORATION

WHAT'S NEXT:

- **Seeking out opportunities to speak at Rooster Booster:** further encouraging the community to move towards inclusion
- **Create a community resource and contact checklist:** providing a reference sheet of organizations and individuals who can help you in your efforts to be more inclusive
- **Spearhead an awareness campaign:** continuing to spread the message of inclusion throughout the community.

HOW CAN YOU HELP?

If you feel you or your organization can help us move forward, this is your call to action! Please visit us at wellness4ky.org or contact us at wellness4ky@uky.edu
